

Coastal lot catalogue

Croatia — Istria, Kvarner and Dalmatia

1085 lots, ordered by distance from the sea.

Selection: a building of 25–120 m² classed as KUĆA, STAMBENA ZGRADA or KUĆA ZA ODMOR, standing on a parcel of 100–10,000 m² whose dominant recorded land use is rural (šuma, pašnjak, oranica, maslinik, vinograd, livada, voćnjak, neplodno), within 400 m of the coastline. 360 katastarskih općina swept.

Sources: DGU bulk cadastre (ATOM), OSS parcel-info for ownership, ISPU for parcel geometry, DGU DOF LiDAR 2022/2023 orthophoto. Parcel boundary drawn in yellow.

The cadastre does not record whether a building is legal, and ownership does not record age. Both need checking per lot.
